EGOLF WORKSHOP

Extended Application for Glazed constructions

EN 15254-4:2008+A1:2011 - Extended application of results from fire resistance tests on non-loadbearing glazed wall constructions, carried out in accordance with EN 1364-1, and classified according to EN 13501-2.

Hosted by SP Technical Research Institute of Sweden
To be held November 26th and 27th 2014 at SP in Borås, Sweden from 10.00 – 17.00 on Wednesday and 09.00 – 13.00 on Thursday.

Workshop structure
Purpose of the workshop – to allow the laboratories an opportunity to discuss interpretations and foresee problems within the EXAP standard EN 15254-4, in order to attempt to harmonise the approach using the EXAP across Europe.

An agenda for the workshop will be sent to participants prior to the meeting. Topics will be based on the results of the EGOLF Round Robin on EXAP and classification that was performed last year. Participants are very welcome to add items to the agenda before or during the workshop.

Outcome of the workshop
A report from the workshop will be drafted containing all the topics discussed and any solutions suggested. When possible these solutions will be proposed as EGOLF recommendations to be considered for approval at the following EGOLF meeting.

We suggest you bring with you:
- Copy of EN 1364-1:1999
- Copy of EN 13501-2:2009
